

Linear Steam Head®

TS0088

- Quiet, even distribution of steam
- No field assembly required
- No moving parts
- Minimal profile
- Aroma Feature

**Linear Steamhead Installation:**  
(3/4" NPT)

**IMPORTANT:** Do not disassemble steamhead. MrSteam's steamhead is shipped fully assembled and requires no additional assembly.

Locate steamhead 6-12 inches above floor, except for tub/shower enclosures; install 6 inches above tub top edge.

**CAUTIONS** Because the steamhead and direct steam emissions are very hot, locate the steamhead where incidental contact by bather with the steamhead or direct steam emission cannot occur.

- Linear Steam Head model 104495 is suitable for MrSteam generator models MX4-MX6.
- One or more 104495 linear steamheads must be used for models MX4, 5 & 6.
- Using model 104495 for any steam generator model larger than the MX6, or for any non MrSteam brand generators may result in an improper installation or hazardous condition.
- For residential use only.
- Only install the linear steam head in a horizontal orientation as shown in installation manual, PUR103939.

Steam Head with Optional Diverter

Steam Head without Optional Diverter
