# Bring wellness home with nature's oldest therapy.

With over 100 years of experience, MrSteam has a legacy of helping people **feel good and live well**. Steam helps us physically by supporting heart, lung and vascular well-being. By promoting relaxation and managing stress, it calms the mind. These benefits are why we believe that **steam is not a luxury but a necessity**. Each and every innovation is designed to deliver steam with ease in every home. A traditional shower cleans, but a MrSteam shower cleanses — **mind, body and spirit**. As innovators of wellness, we are more than purveyors of steam. **We bring wellness to life.**

# Three simple steps to steam.

With our VirtualSpa tool, you can easily determine which system is the right fit for your home in three simple steps — size, select and customize. Visit [VirtualSpa.MrSteam.com](https://VirtualSpa.MrSteam.com) and see how choosing your personal MrSteam steam shower can be an effortless upgrade.

## 1 SIZE YOUR STEAM GENERATOR

To ensure you have the right amount of steam for your steam shower experience, our online tool will help determine the generator size needed for your unique space.

## 2 SELECT YOUR STEAM ROOM CONTROL

Easy to install and intuitive to use, MrSteam controls allow you to tailor each steam bath. Controls may be selected à la carte or as part of a complete package for an even more simplified shopping experience.

## 3 CUSTOMIZE WITH THERAPIES AND ACCESSORIES

From scent to color to sound, our range of therapies activates the senses for a transformative steam showering experience from start to finish.

Create a symphony of scents with the AromaTray that enables you to personalize your steam with fragrant, calming-to-energizing essential oils. Designer accents complete the look and feel of a tranquil luxury haven. The Linear SteamHead is supplied with an optional steam diverter.
